KENTUCKY TRAILER
A Servant Leader Company

**135+ years of innovation
has resulted in a wide array
of extraordinary moving
van models.**

Custom Built Moving Vans

Electronics

Versatility in placement of multiple curbside and roadside doors make it the most popular model in the moving industry.

Drop Frame

The original moving van and still the household mover's choice. When cube and payload count, go with a drop frame.

Pallet Van

Kentucky Trailer's pallet van with 66" wide doors from front to rear is ideal for container loads.

Double & Triple Drop

To maximize cubic capacity, drop the floor in front or rear of the axles.

Spread Axles

Spread axles for increased hauling capacity.

City Mover & City Pallet

A shorter van specifically designed for inner city and office moves in congested urban areas.

To associate one word with Kentucky Trailer, think "customization" because every load is different in the moving industry, no one standard moving van can answer the call.

Kentucky Trailer pioneered, engineered and manufactured the modern moving van earning the reputation as industry leader.

**What can
KentuckyTrailer
do for you?**

kytrailer.com

Customers can rely upon the experience of veteran craftsmen to create their ideal Kentucky trailer. From concept to reality, Kentucky Trailer creates custom vans that are built to last and to meet your specific requirements.

A Servant Leader Company

Climate Van

The insulated Climate Van provides the ultimate protection for climate sensitive cargo.

Mover Plus

When a tandem axle isn't enough, use the Mover Plus and lower the third axle when hauling loads exceeding 34,000 lbs.

The most versatile range of custom built moving vans in the industry.

Double Drop Electronics

Drop the floor between the landing gear and axles and keep the tail of an electronics van for increased capacity, ease of operation and car hauling.

Special Commodities

The right trailer for the right job, from a dry freight van to a complex unit with side doors and storage boxes.

Additional Features

Sliding Loading Platform

A durable, stainless steel and aluminum Sliding Loading Platform (SLP) eases the labor-intensive task of loading and unloading.

LED Strip Dome Lights

Complete trailer illumination from front to rear with 50,000 hour long life LED's.

Retrofitable to existing Kentucky Trailer models.

Corner Castings with built in Corner Protectors

Protects the bevel light and reduces potential structural damage from limbs and wires.

New Mini-LED Lights

Double sealed LED lights positioned closer to upper flange, allows for greater visibility and minimizes damage risk.

Enhanced Undercoating Package

Provides greater protection against road treatment chemicals while reducing Volatile Organic Compounds (VOC's).

A Kentucky Trailer Green Initiative

Non-Ethyl Benzene Floor Coat

Improved polyurethane floor treatment combines aesthetic appeal and durability; reduces hazardous air pollutants (HAPS).

A Kentucky Trailer Green Initiative
